The Grand Master then addressed Maharajah Man Singh in the Hindoostanee language, to the following effect:—

"MAHARAJAH MAN SINGH! HER MAJESTY THE QUEEN OF ENGLAND AND INDIA, having heard of your good services in various important matters connected with the administration of the Province of Oudh, has thought fit to appoint you a KNIGHT COMMANDER of the Most Exalted Order of the STAR OF INDIA. In obedience, therefore, to Her command, I now place on your person these Insignia, and pronounce you to be a KNIGHT BACHELOR throughout the Realms of Great Britain and India,

"I take this opportunity also of stating in this Durbar, before this large assembly of Nobles, and Officers, and Gentry, in the presence of your countrymen and my own, that you have in my estimation a special claim to honor and gratitude, inasmuch as, at the commencement of the mutiny in 1857, you gave refuge to more than fifty English people in your Fort at FYZABAD, most of whom were helpless women and children, and thus, by God's mercy, were instrumental in saving all their lives."

By command of the Grand Master, the purport of His Excellency's address was then read aloud in English by the Secretary.

The Chapter was declared by order of the Grand Master to be closed.

Whereupon Maharajah Sir Man Singh received the congratulations of the Viceroy and Governor General and of the High Officers of Government around the Throne.

THE DURBAR.

The Installation being concluded, a general Durbar was held for the presentation to the Vice-ROY AND GOVERNOR GENERAL of the Talookdars of Oudh.

His Highness the Rajah of Kuppoorthulla, G. C. S. I., was first introduced to His Excellency as a Talookdar of Oudh. Then, in succession according to their respective precedence, the remaining Talookdars of the Province were brought forward to the Dais, and presented their Nuzzurs to the Viceroy.

When the Khilluts had been displayed, the Maharajah Sir Man Singh advanced to the Dais, and on behalf of the Talookdars of Oudh, read an address to His Excellency the Viceroy and Governor General. The purport of this address was afterwards read in English by the Under Secretary. It was as follows:—

"We, the Talookdars of Oudh, beg most respectfully to welcome your Excellency to this Province. It is a pleasing duty to greet the

Representative of our Gracious Queen, and express to him in person how grateful we feel for the numerous blessings conferred on us by Her Majesty's Government. Our rights have been secured to us, education is diffusing its vivifying rays, and the security of life and property has been fully established throughout the land. Words cannot convey how deeply we appreciate the benefits of British rule.

"It will be gratifying to your Excellency to learn that many of the evils of our social state have been eradicated; that the material improvement of our estates is in progress; and we trust that we are doing all in our power to help the cause of good government.

"Your Excellency's intimate knowledge of our language and of the manners and customs of our country has given your Excellency advantages seldom possessed by your Excellency's predecessors. Many difficult problems arising from the compli-cated organization of our society have been so satisfactorily solved by your Excellency as to leave no room for future misapprehension. We humbly no room for future misapprehension. offer your Excellency our heartfelt thanks for the interest your Excellency has always taken in the prosperity of Oudh. Misconceptions arising from the wording of our sunnuds have been removed; and the laws and rules made by your Excellency's Government are eminently calculated to confirm and strengthen the policy of Lord Canning, and protect the real interests of all classes of the people. We respect your Excellency's benevolent designs with regard to the lasting welfare of our tenants, and we take this opportunity to assure your Excellency that we look upon them as members of our own families, and that we believe that our interests, closely bound together, form the best safeguard of harmony and mutual good-will.

"The just and equitable manner in which the claims of under-proprietors have been settled has laid us under great obligations to your Excellency. Their rights and privileges have been defined, and we join them in blessing your Excellency from the depth of our hearts for removing the cause of constant disputes and differences between us, which so much impeded the prosperity of the land. Not a day passes in which we do not pray to God to shower His favors on your Excellency. There are none among us who for a single moment murmur at the fair arrangements by which these important questions touching the landed interests of Oudh have been adjusted.

"Many disputes were likely to arise about the partition of the estates left by Talookdars to their descendants. Peace threatened to vanish from our homes; the members of the same family, bound by ties of consanguinity, though living under the same roof, would have borne rancour against each other, and litigation would have prevailed to a fearful extent. A terrible storm might have arisen which would have swept us all away before it. We looked aghast and did not know what would become of us. God however was merciful in giving us such a wise Ruler in your Excellency's person, who as if by magic, cleared the atmosphere. The wise laws passed or in contemplation by your Excellency on this subject have arrested the course of this storm. These laws will enable us to preserve our estates intact, and give an additional impetus to the improvement of our lands.

"A great boon has been bestowed on us by your Excellency's resolution to appoint our countrymen, possessing the requisite qualifications, to higher offices of trust and honor than those to which they were eligible under former Viceroys.

"We are beholden to your Excellency for your Excellency's kind intention to open Canals to irrigate and fertilize every part of Oudh, and to connect it by Railway with the other flourishing Provinces of Hindoostan.

"We are proud of the Officers that your Excellency has given us to administer this Province. They most zealously and efficiently carry out the generous wishes of our Sovereign. No particular names need be mentioned, where there are so many that deserve our esteem. We owe a debt of gratitude to Sir Charles Wingfield, the Hon'ble Mr. Strachey, Mr. Davies, and Colonel Barrow, that can never be repaid.

"We are grateful for the honor your Excellency has done us by your visit. May God bless your Excellency and give to your Excellency long life and prosperity."

SIR JOHN LAWRENCE then rose and, again speaking in the Hindoostanee language, replied:—

"MAHARAJAHS, RAJAHS, CHIEFS, and GENTLE-MEN of the Province of Oudh!

"I have come to Lucknow at your invitation, to meet you at this Durbar, in order that we may exchange expressions of kindness and courtesy, and so knit together the bonds which should unite Rulers and Subjects in all countries. Though we differ in race, in religion, and even, in a great degree, in habits of thought, we are all created by the same God; we are all bound by the same general laws; and we shall all have to give an account to Him at last of the manner in which we have obeyed His Commandments. In this way, there is a common bond of union among us all, whether high or low, rich or poor, learned or ignorant.

"In the name of our Most Gracious Sovereign, the Great Queen of England and India, I thank you for your expressions of loyalty and attachment to Her person, which I shall duly represent to Her Majesty, and which I am sure that she will receive with much pleasure. Her Majesty never fails to take great interest in all which concerns her subjects in India; and fully sympathises in their feelings and wishes.

"I acknowledge also most heartily the good-will and confidence which you have evinced in your address towards myself; and I assure you, that on my part, I quite reciprocate these senting towards the Chiefs and People of Oudh. sentiments admit that the policy which I have pursued in the settlement of the landed tenures of Oudh has not proved detrimental to your interests; but that, on the contrary, the result has been beneficial. This is to a certain degree satisfactory. It is however, a result which should induce you to treat with kindness and real consideration those whose interests and well-being depend on your will and pleasure. Some of these people are nearly related to you; many more of them, or of their ancestors, originally had rights and interests, either independent of your control, or which from various circumstances you were obliged to respect. It is the misfortune of these people that in many instances their ancient rights, their peculiar advantages, have been swept away, and have passed into your hands; and therefore they have a strong claim on your consideration and on your sense of justice.

"I readily express my acknowledgments for the liberal spirit in which the Talookdars and Zemindars of Oudh have generally met my efforts to mitigate the hardships which the arrangements of 1858, and the too strict interpretation of the conditions in the sunnuds which were subsequently issued to them by the British Government, entailed on those whose claims were antagonistic to their own. A good deal has been done to redress these grievances; and all which has been agreed on will be carefully recorded, so that every one may be able, in case of dispute, to adduce evidence of the rights to which he has been admitted. But much must still depend on yourselves, and on the good relations which are maintained between these people and yourselves—much which laws and rules can never reach, and which must rest on your own conception of fair dealing and justice.

"I have paid much attention to the administration of this Province, and can bear testimony to the energy and ability with which its affairs have been conducted since it came under British control. And I am glad to understand that you are generally satisfied with your Rulers, and believe that they work for the public good.

"It is only right that I should remind you that no Government can be based on solid foundations where all classes of the people are not generally prosperous and contented; where they do not fairly enjoy the fruits of their own labor; and where peace and security do not prevail. A Government ought not to exist for the special advantage of any one class, but for the common benefit of all.

"Every Chief and every Landholder should endeavour, as far as may be practicable, to act in co-operation with the Government Officials of his District. In this way improvements of all kinds will be made; and the intelligence and physical condition of the mass of the people will be gradually elevated, while the legitimate influence of the nobility and gentry will be maintained, and indeed will increase. If however on the contrary, these classes should unhappily be regardless of the welfare of the people, and unwilling to aid in measures for their improvement, they will certainly lose their influence in the country. Then, however aggrieved they may feel, the fault will lie at their own doors. But I hope for better things from the Chiefs and Gentry of Oudh.

"In your address you allude very justly to the vast benefits of Rahroads and Canals to the Province of Oudh. Such works are of great importance in every country, and it is the constant desire of the British Government to extend such advantages, as far as may be practicable, in every direction. Their tendency is to enrich all classes, and to impoverish none. But such works, and indeed many other improvements, are greatly needed everywhere, and vast sums of money are necessary for their adequate development, which the resources of the State cannot afford to the extent required. The Government of India does not spend the public revenues in pomp and show, but in necessary and useful objects; and you may be quite certain that Oudh will receive her share.

"My friends, I again thank you for the kind terms of your address. I feel an earnest desire for your welfare; and I trust that as years flow on, you may become more and more sensible of the solid benefits of British rule in India."

SIR JOHN LAWRENCE having resumed his seat, the Foreign Secretary, by command of the Viceroy, read from the steps of the Throne His Excellency's speech in English.

Whereupon Uttur and Pan were distributed to the Chiefs and Talookdars, and the Durbar was ended.

The Viceroy and Governor General retired from the Hall, under a Royal salute.

STATEMENT OF OBJECTS AND REASONS.

The primary object of this Bill is to increase in the Presidency of Bengal the jurisdiction of the District Munsifs. That jurisdiction, which in Madras extends to rupees 1,000 and in Bombay to rupees 3,000, has, since 1831, been limited in the Lower and the North-Western Provinces to rupees 300. Both the local High Courts are of opinion that the judicial ability of the Bengal Munsifs is now such that they may be safely entrusted at once with a jurisdiction extending to rupees 1,000, power being reserved to the Local Government to raise the jurisdiction from time to time as may seem expedient. It is proposed that the Munsifs shall be appointed by the Local Government.

The Bill raises the jurisdiction of Sadr Amins to rupees 3,000.

The opportunity has been taken of consolidating the twelve Regulations and Acts in which the law relating to Principal Sadr Amíns, Sadr Amíns and Munsifs in Bengal is now contained.

Provision is also made for investing Principal Sadr Amins with the jurisdiction of Judges of Courts of Small Causes. The converse provision, for investing Small Cause Court Judges with the jurisdiction of Principal Sadr Amíns—has already been made by Act No. XI of 1865.

Lastly, in order to restore to the Civil Judges the jurisdiction of which they have been deprived by the operation of the mode of valuing revenuepaying lands introduced by the new Stamp Act, the Bill proposes to raise their appellate jurisdiction to rupees 10,000.

No. 1102 of 1867.—The following promotions are made in the under-mentioned Corps of the Native Army:—

No. 1103 of 1867.—With the view of alleviating the pressure on the may ried European Soldier, caused by the high prices of food, which from time to time prevail at different stations in the three Presidencies, and which the fixed subsistence allowance granted by the State to aid him in maintaining his wife and children but imperfectly meets, the Right Hon'ble the Governor General in Council is pleased to decide that whenever, and for so long as, the actual cost to the Commissariat Department of the Soldier's ration in any station shall exceed Rs. 14 a month, the Soldier shall have the option of drawing, in lieu of half the subsistence allowance which he receives for his wife and children respectively, a half ration for the former, and a quarter ration for each of the latter above one year old.

2. The required rations must be duly notified and drawn, and the recovery effected under Regimental arrangements, and, on each occasion in which the arrangement is found necessary, a report

must be made for the information of the Government of India.

3. At all times the wives of Soldiers shall be allowed to purchase, for the bond fide consumption of themselves and their children, any articles of Commissariat supply at the Agency or Contract rates, payments being made in "Cash," or secured by Regimental arrangements.

No. 1104 of 1867.—Four Regiments of Native Cavalry from the Bengal and Bombay Presidencies having been placed under orders for service in Abyssinia, and as during a sea-voyage the Officers, Non-Commissioned Officers, and Sowars would be unable to make the requisite provision for the forage of their horses, whilst difficulty might probably be experienced in this respect during a portion, at least, of the service on land, His Excellency the Governor General in Council has determined that the forage of the horses and of the due proportion

of Yaboos and Tattoos accompanying, shall be undertaken by the State, with such assistance as the Regiments and followers may be enabled to render, the pay of all grades during the existence of this arrangement being regulated accordingly at an uniform rate for the two Presidencies.

- 2. In all other respects, the Silladar system will be maintained in its integrity, and all grades will be held responsible for the due care and condition of their horses and cattle.
- 3. All ranks will be required, as at present, to maintain one efficient horse, but the Native Commissioned Officers will be allowed forage for two horses each, if they desire to take a second charger.
- 4. Each Native Commissioned Officer will be required to keep up one Yaboo or Tattoo, and one attendant as syce and grass-cutter, whether he takes one or two horses; and the Non-Commissioned Officers and Privates to maintain one Yaboo or Tattoo, and one grass-cutter, for every two horses.
- 5. The attendants will be paid by the Troops as usual, but the Yaboos and Tattoos will receive grain and, when necessary, hay free of cost; but both grass-cutters and Yaboos or Tattoos will be required to assist in procuring forage when obtainable, and must be held entirely disposable for that purpose.
- 6. On boardship the forage and water will be issued under the usual Regulations; Yaboos and Tattoos receiving a half ration of forage, and two-thirds of a horse's supply of water, or as may be specially ordered.
- 7. On land, the forage allowance for each horse will be lbs. 8 of gram or oats, or the equivalent of any other grain available, with lbs. 20 of hay or dried grass, when green forage is not obtainable. For each Yaboo or Tattoo, the allowance will be one-half of the forage ration of a horse, or as may be specially ordered.
- 8. When green forage is partially procurable, 3 lbs. will be considered the equivalent of 2 lbs. of hay.
- 9. Whilst on boardship, and during the continuance of the service, the grass-cutters will be allowed the scale of rations sanctioned for followers, or ration money at the rate of Rs. 2-8-8 each, in addition to the amount paid to them by the Regiments.
- 10. The Native Commissioned and Non-Commissioned Officers and men will continue to subscribe to their Regimental funds to such extent as Commanding Officers may deem necessary, within the limits prescribed by Regulations.
- 11. They will continue to supply their ordinary clothing, equipments, saddlery, and stable gear, but any articles of extra clothing rendered necessary by the nature of the service will be issued free of cost.
- 12. As already stated, all grades will continue responsible for the welfare and condition of their horses, and all casualties arising from neglect, or from causes evidently unconnected with the particular nature of the service, must, as usual, be re-placed by the Regiments concerned. Each Troop will be allowed to embark and maintain two Chunda horses to meet such casualties, which will be rationed free of cost.
- 13. All casualties fairly attributable to or connected with the service, including those from

- accident on boardship or during embarkation or disembarkation, will, if there has been no proved neglect, be re-placed by Government, or compensation will be allowed according to the age and value of the horse so injured or destroyed, within the Regulation limit of Rs. 200.
- 14. Compensation will also be allowed for casualties amongst the Yaboos or Tattoos, consequent on the nature of the service, at a rate not exceeding in any case Rs. 30; or the animals will be re-placed by Government.
- 15. During the continuance of this arrangement, the pay of the several grades will be as follows:—

No. 1115 of 1867.—The following extract (paragraphs 1 to 3 of a Financial letter from the Right Hon'ble the Secretary of State for India, No. 362, dated 18th October 1867, is published for general information:—

PARA. 1.—I have considered in Council your Military letter No. 211 of 1867, dated 3rd August, transmitting copy of a communication from the Directors of the Bengal Military Fund, respecting the case of Lieutenant Currie, a subscriber to the Fund who had rendered himself

liable to the payment of Indian rates of subscription under Article 5 of the Regulations,* by the resignation of his commission in the 5th Europeans.

- 2. Sir Charles Wood's Military Despatch No. 92 of the 28th February 1863 decided that Commissioned and Warrant Officers accepting the appointment of Pay Masters in new Line Regiments, must retire from the Indian Service. The case of Lieutenant Currie cannot therefore be regarded as a mere transfer from one branch of the service to another, but as a retirement from the Indian Service.
- 3. In consideration, however, of the circumstance that Lieutenant Currie has taken up the

appointment of Pay Master in one of Her Majesty's Regiments, and that prior to taking this step he was obliged to resign his former commission, I have determined to accede to the recommendation of the Directors of the Fund, and to extend to Pay Master Currie, and all Officers similarly situated, the benefits conceded to Officers transferred from the Indian to the British Military Forces by General Order No. 899 of the 25th October 1866, Lieutenant Currie will therefore be entitled to all the benefits granted by the Bengal Military Fund, and will subscribe at Indian rates, if drawing Indian Allowances, and at Europe rates, if not drawing Indian Allowances.

STATEMENT OF OBJECTS AND REASONS.

The primary object of this Bill is to increase in the Presidency of Bengal the jurisdiction of the District Munsifs. That jurisdiction, which in Madras extends to rupees 1,000 and in Bombay to rupees 3,000, has, since 1831, been limited in the Lower and the North-Western Provinces to rupees 300. Both the local High Courts are of opinion that the judicial ability of the Bengal Munsifs is now such that they may be safely entrusted at once with a jurisdiction extending to rupees 1,000, power being reserved to the Local Government to raise the jurisdiction from time to time as may seem expedient. It is proposed that the Munsifs shall be appointed by the Local Government.

The Bill raises the jurisdiction of Sadr Amins to rupees 3,000.

The opportunity has been taken of consolidating the twelve Regulations and Acts in which the law relating to Principal Sadr Amíns, Sadr Amíns and Munsifs in Bengal is now contained.

Provision is also made for investing Principal Sadr Amíns with the jurisdiction of Judges of Courts of Small Causes. The converse provision,—for investing Small Cause Court Judges with the jurisdiction of Principal Sadr Amíns—has already been made by Act No. XI of 1865.

Lastly, in order to restore to the Civil Judges the jurisdiction of which they have been deprived by the operation of the mode of valuing revenue-paying lands introduced by the new Stamp Act, the Bill proposes to raise their appellate jurisdiction to rupees 10,000.

No. 1191.

The Right Hon'ble the Viceroy and Governor General is pleased to publish for general informa-tion and guidance the orders of Her Majesty The Queen regarding Foreign Orders and Medals

The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force :-

Regulations respecting Foreign Orders.

- 1. No Subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's per-mission to that effect, signified by a Warrant under Her Royal Sign-Manual.
- 2. Such permission shall not be granted to any Subject of Her Majesty, unless the Foreign Order

shall have been conferred in consequence of active and distinguished Service before the Enemy, either at Sea or in the Field, or unless he shall have been actually and entirely employed, beyond Her Majesty's dominions, in the Service of the Foreign Sovereign by whom the Order is conferred.

- 3. The intention of a Foreign Sovereign to confer upon a British Subject the Insignia of an Order must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited to the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.
- 4. If the service for which it is proposed to confer the Order has been performed during War, the Notification required by the preceding Clause must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the service has been performed in time of Peace, the Notification must be made within two years after the date of such service.

5. After such Notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from Naval or Military Services before the Enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Commander-in-Chief if the application relates to an Officer in the Army, or to the Lords of the Admiralty if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favor it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the Warrant required by Clause 1 to be prepared for the Royal Sign-Manual.

When such Warrant shall have been signed by the Queen, a Notification thereof shall be inserted in the *Gazette* stating the service for which the Foreign Order has been conferred.

- 7. The Warrant signifying Her Majesty's permission may, at the request and at the expense of the erson who has obtained it, be registered in the College of Arms.
- 8. Every such Warrant as aforesaid shall contain a Clause providing that Her Majesty's license and permission does not authorize the assumption of any style, appellation, rank, precedence or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.
- 9. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honor strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding Clause shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by Her Majesty's predecessors King George IV and King William IV, on whose heads the Crowns of Great Britain and of Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of Clause 2 of these Regulations. They must be rather considered as personal favors bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Regulations respecting Foreign Medals.

- 1. Applications for permission to accept and wear Medals which, not being the Decoration of any Foreign Order, are conferred by a Foreign Sovereign on British Subjects in the Army or in the Navy for Military or for Naval Services, should be addressed, as the case may be, to the Commander-in-Chief, the Master General of the Ordnance, or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction; upon obtaining which they may grant such permission without any other formality.
- 2 Permission to wear a Foreign Medal cannot be granted to a British Subject unless such Medal is bestowed for Military or Naval Services performed by the command or with the sanction of Her Majesty. But no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

Telegraph.

The 2nd December 1867.

No. 98.

The following Rules for the transmission of messages by the Government Telegraph have been sanctioned by the Governor General in Council, and are published for general information:—

RULES.

GOVERNMENT TELEGRAPH DEPARTMENT.

The following revised Rules for the transmission of messages on the lines of this Department will come into operation on the 15th January 1866:—

1. Messages are received at all hours day and night, with exception of Sunday, Christmas day, New year's day, the Queen's birth day, and Good

Friday, when the Offices will be closed between the hours of 8 and 16 (or 4 P. M.)

- 2. Messages tendered for transmission on ordinary days between 18 h. (or 6 p. m.) and 6 h. of the following day, and between 6 h. and 8 h., and 16 h. and 18 h. (or 4 p. m. and 6 p. m.) on the above named holidays, will be charged double the ordinary rate.
- 3. In assimilation to the practice in force on European lines, messages will be charged for by groups and half groups. A group will consist of 20 words, and half a group of any number not exceeding 10.
- 4. A message, however short and not exceeding 20 words, will be charged for as one group. Above 20 words and not exceeding 30, as a group and a half. Above 30 words and not exceeding 40, as two groups, and so on.
- 5. With the exception of the prefixes "From" and "To" and the name of the Station from which despatched, every word in the address and body of the message will be charged for.
- 6. The number of groups being ascertained, the cost of the message will be calculated according to the following scale:—

Scale of Charges for a group of 20 words.

Not ex	ceeding	œ.	100	Miles	Rs.	0	8	0	1
Above 100 a	nd not	exceed	ing 200	**	**	1	0	0	In addition

and so on, adding one Rupee for every 400 miles, or fraction of 400 miles. Half the above rates will be charged for every 10 words or fraction of 10 words after the first group.

- 7. The distances between Stations, measured on the shortest route by which it is possible to telegraph by a Government wire, will be found in the Tariff Book, which may be obtained at any Government Telegraph Office, Price 3 Rupees per conv.
- 8. Peon hire has been abolished, and in lieu thereof a fixed Booking Fee of 8 annas is to be levied on every message irrespective of its length, the distance it has to travel, or the hour it is tendered for transmission. This fee is to cover the expense of registering the message at the Booking Station and of the Peon who delivers it. Should a message be sent partly by the Government and partly by private lines, the Booking Fee will be paid once only for each system of lines.
- 9. Peons will deliver messages free to any place not exceeding five miles from the Telegraph Office. Beyond this distance, messages will be sent either by Post registered, the fee being pre-paid, or by such other means as the sender may arrange and pre-pay for at the Booking Station. Any additional words that may be necessary to explain the mode of delivery of a message, when its destination is more than five miles beyond the nearest Telegraph Office, will be considered as part of the message and charged for accordingly.
- 10. Two Rupees and a Ceylon Booking Fee of 8 annas in addition to the above scale will be charged for every group of 20 words sent to or from any Station in Ceylon, and a half rate, viz...

 1 Rupee, for every additional 10 or fraction of 10 words in excess of 20.

- 11. These rates do not apply to Indo-European messages, which for the present will remain unaltered.
- 12. The day, hour, and minute of receipt of a message into a Telegraph Office for transmission is, in every instance, added by the Department, forming the concluding words of the text of the message, and is telegraphed free of charge. Senders may, however, date their messages if they think fit, but the sender's date, if inserted, will be charged for, and, in view to avoid confusion, will, if given at the end, be transferred to the beginning of the text of the message.
- 13. The accuracy of messages is not guaranteed, and the sender and receiver have to accept all risk arising from errors and delays.
- 14. Senders of messages are advised to write their messages in an unmistakable and distinct hand, and to use the shortest and most familiar words they can select. The more intelligible the message is, the greater is the probability of its being transmitted correctly.
- 15. The accurate transmission of messages is rendered much more certain by their being repeated back from each repeating Station. This repetition is charged for at half price extra, and is advised in all messages of great importance.
- 16. The errors which chiefly occur are in the numerals, such as sixteen, sixty—thirteen, thirty, owing to the sound and first three or four letters being similar. To obviate this, it is recommended that in all financial or money messages, the sum be given in two forms, halving or doubling the amount, thus, "Pay to my order Rs. 500 or half 1,000." When this is done, an error is of very rare occurrence.*
- 17. Messages in cypher are transmitted at the ordinary charge; they must be either in ordinary English words of concealed meaning or in numbers written in full, as in a cheque.

Figures are telegraphed as if written in full, as in a cheque, and charged for according to the number of words; thus, "Rupees fifteen hundred and sixty-four" count as six words.

- 18. Should a message in cypher be tendered for transmission simultaneously with a message in ordinary language, the latter will take precedence of the former.
- 19. All messages must be in the English language, except those for or from Europe by the Indo-European Telegraph, which may be in French or other European language in the Roman character.
- 20. The name and signature of the sender must be written on the face of every message.
- 21. When a message is delivered wholly or partially in an unintelligible state, a refund of the cost of the portion rendered useless will be made to the sender if application be made within three months of the date of despatch, provided the message has not been transmitted beyond the limits of India, its dependencies on Ceylon, and within twelve months in the case of messages for countries beyond India, as China, Australia, Egypt, and Europe. Such refunds will be made irrespective of whether the message has been paid for

- at repetition price or not; but no refund will be given for any error in an unrepeated message arising from wrong figures being given, unless the precaution advised in No. 16 of these Rules shall have been adopted. Refunds on account of messages which have not reached their destination will be made subject to the above limits as respects time, as will also refunds for unjustifiable delay of messages. By unjustifiable delay is meant that arising from neglect in the Offices. When a message is detained by an interruption on any section of the line, and is sent on by next post to the nearest Telegraph Station, the time occupied by the post is not allowed to count as delay in the Telegraph Department. When a message occupies in transit more than two-thirds of the time it could have been sent by post in, a refund in full will be accorded.
- 22. Complaints regarding missing or inaccurate messages should be addressed to the Complaint Office, Calcutta. An exact copy of the message in question, and the receipt of the Dispatching Office, should in all cases accompany the complaint.
- 23. Private messages shall be despatched in the order of their receipt in the Telegraph Office. Should two or more messages be tendered simultaneously, the shortest shall have precedence, without reference to its relative importance.
- 24. No message or messages of more than 200 words in all can be sent at one time by any private individual or firm, and no second message by the same individual or firm till after the lapse of three hours, unless the line be free and not required by any one else.
- 25. When two or more lines extend between any two places, messages will be sent by the direct line. Senders cannot choose the line, but they may send by two or three lines on the payment of double or triple price.
- 26. Messages are sent "bearing" from seaports when received by Mail Steamers or other vessels for despatch, but no message, whether paid or bearing, will be received for transmission from any vessel until her name has been made known. Bearing messages will not be delivered to the addressee till payment has been obtained.
- 27. In cases of extreme pressure of business, Telegraph Masters may refuse to receive for despatch any messages beyond the number which experience shows may be cleared off within the day. The messages is such cases are not to be received and kept for despatch the following day, but must be returned so as to prevent accumulation.
- 28. In case of interruptions on any line, Telegraph Masters have the power to refuse the receipt of messages for transmission.
- 29. When an interruption occurs, notice to that effect is to be posted conspicuously at the entrance of each Office, and communicated to the Press for public information.
- 30. In every such case, all persons tendering messages for places beyond the interrupted section are to be informed of the interruption, advised not to leave the message, and acquainted that a refund will not be made in case of delay from this cause.
- 31. The sender of a message may pre-pay the charge for a reply, which must be limited to the

^{*} The accidental omission of the word Nor causing in many cases the total change of the intended meaning of a message, this word is always signalled, in slow time, twice over by the sender, and once back by the receiver, at each Station. The same precaution is taken in signalling the words our and your.

number of words so pre-paid for, and must be sent within three days of receipt of the message, or the right of sending a reply "paid bearing" will lapse. Should the sender not receive a reply within 14 days, the Telegraph Master will refund to him, on demand and receipt, the deposit made for such reply.

- 32. Telegraph Masters are authorized to refuse to transmit a message which may be of a decidedly objectionable character. Should the character of the message be disputed, the matter may be referred to a Secretary to Government if the dispute occur at the seat of a Government, or to the chief Civil Officer if at a provincial Station.
- 33. To secure secrecy as much as possible, all persons, including Officers of the Telegraph Department not actually on duty, are strictly probibited from entering the Signal Room. The only exception to this rule is for senders of messages, who may be allowed to see their messages despatched, if they attend the Office at the time of their turn for transmission.
- 34. Violation of secreey on the part of any person in the Department will be punished by dismissal from office, forfeiture of arrears of pay, and a declaration in the Official Gazette of the incapacity of the delinquent to serve the Government in any official capacity. It is a violation of secrecy to mention the fact that any message has been received or despatched by any particular person or firm.
- 35. Service messages from all public functionaries must be paid for in cash prior to despatch, the rates being the same for distance and number of words as those charged to private individuals.*
- 36. Service messages have no right of precedence, and take their turn of despatch with private messages, except in cases of pressing public emergency and importance, when priority may be claimed on special grounds.
- 37. The sums paid by public functionaries for the despatch of messages will be recovered from Government by the senders, in their own Departments, by contingent bills countersigned as usual.
- 38. On certain emergent occasions of great importance, the public functionaries named below have the power of "clearing the line," that is, of suspending the receipt and despatch of all other messages till the one for which the line is cleared has passed on:—

The Governor General of India.

The Governors of Madras, Bombay, and Ceylon. Commanders-in-Chief, India, Madras, and Bombay.

Lieutenant Governors of Bengal, North-Western Provinces, and Punjab.

Secretaries to the Government of India.

Secretaries to the Governments of Madras, Bombay, Bengal, the North-Western Provinces, and the Punjab.

Chief Commissioners of Oude, the Central Provinces, and British Burmah.

Commissioner of Scind.

Director General of Telegraphs in India. The Resident at Hyderabad (Deccan). The messages so sent are, however, to be paid for in cash as in ordinary.

39. No unpaid messages, except those specified in Departmental Regulations, shall on any account whatever be transmitted. A violation of this rule will subject the Signaller or Telegraph Master of the Station the message is sent from to dismissal from the public service.

D. G. Robinson, Lieut. Col., R. E., Dir. Genl. of Tels. in India.

No. 2858.

The following Resolution is published in the Gazette of India:

No. 2621, dated the 21st November 1867.

READ-

Resolution No. 1987, passed in this Department on the 15th August 1867, deciding, inter alia, that "persons living on the rent of their houses ought to be liable to take out licenses" under Act XXI of 1867.

RESOLUTION.—Since the above-mentioned Resolution was passed, an opinion has been recorded by the Advocate General in Bengal, in accordance with which the Governor General in Council is pleased to rule that persons living on the rent of their houses are not subject, as owners of houses, to the operation of the License Act, and that all sums therefore which have been levied from them, as owners of houses, under the provisions of the Act, should be refunded.

^{*} The only exceptions to this rule are enumerated in special printed instructions issued to each Office.

The 6th December 1867.

No. 2887.

The under-mentioned paragraphs of Financial Despatch from the Right Hon'ble the Secretary of State for India, to the Government of India, No. 368, dated 24th October 1867, are published for general information :-

Financial Letters from Government of India, dated 19th January 1867, No. 27. 20th March 98. 23rd 98. 18th April 993. 18th 99 24th 3rd July 12th ,, 18th ,,

PARA. 1 .- I have considered in Council the Financial Letters from your Government noted in margin, relating to the affairs of the Bank of Bombay.

2. I do not consider that

any advantage would attend my entering in this Despatch on an enquiry as to the past mismanagement of that Bank. The evils to be guarded against in

future are fully apparent.

3. In regard to the two propositions which were more immediately before your Government, viz., the amalgamation of the Banks of Bengal and Bombay, or the establishment of a new Bank at Bombay, a material difference of opinion prevailed amongst the Members of your Government, as to the expediency of Government holding shares in any Bank; and the several Minutes which you have forwarded on the subject have received my attentive consideration.

- 4. I fully admit that the connection of the Government with the Presidency Banks is calculated materially to strengthen the confidence of the public in their stability; but so far as regards holding shares, this connection is objectionable in principle, and has led, in certain cases, to grave misapprehension. Nor, in order to secure confidence in the Bank, does it appear to me that it is necessary that the Government should hold I am of opinion that the same effect would be attained, in a sufficient degree, if arrangements could be devised whereby the Government should always be supplied with timely and accurate information as to the mode of conducting the business of a Presidency Bank, and were then to employ it as the Government Banker.
- 5. Entertaining this opinion, although I am aware that it is not in the power of the Government to withdraw (at all events immediately) from being a shareholder in the Banks of Bengal and Madras, I could not consent to the Government becoming a shareholder in a new Bank to be established at Bombay or elsewhere.
- 6. I request therefore that you will make it known that I cannot consent that the Government should take any shares in a new Bank; but if one can be established on a satisfactory footing, and if the shareholders are willing to agree to such I shall conditions as the Government may impose, not object to place the Government Banking business in the hands of the new Bank.
- 7. Among the essential conditions I should require the Bank to agree that a Government Officer appointed for the purpose should at all times have free access to the correspondence and books of the Bank, and that the bye-laws of the Bank should be approved by Government, and not altered without their concurrence.
- 8. If these conditions be acceded to, it would be necessary for you to appoint a competent Officer to perform that duty, and I regard it as of so much importance that it should be his principal, if not his only, employment, and you would require

him to make to the Government of Bombay, weekly, a report on the proceedings of the Bank.

- You will consider and report to me what further conditions it may be expedient to pre-scribe, but keeping in view the above instructions, I authorize you to enter into an arrangement with
- 10. It will be obvious that as the Government will not take shares in the new Bank, I could not, in fairness to the community of Bomby, allow the Bank of Bengal, in which Government is a shareholder, to establish a branch at Bombay.

ACCOUNTS relating to the TRADE and NAVIGATION of BRITISH
INDIA for the Twelve months ended 30th April 1867.

[Published by order of the GOVERNOR GENERAL in COUNCIL.]

- The following Returns embody the Statistics of the Trade and Navigation of British India for the twelve months ended 30th April 1867. Their publication has been retarded by the discovery of defects and errors in some of the subsidiary Statements which necessitated their return for correction. The amended Returns were received on the 26th November.
- Owing to want of uniformity in the expression of weights and measures, and to other imperfections in the local Statements, due principally to the novelty of the work, it has been found necessary to postpone the issue of Consolidated Returns of the Quantities of Articles Imported and Exported; but with this exception the Returns now presented are complete, and have been brought down to the latest date for which information was available at the time of preparation for publication.

STATEMENT OF OBJECTS AND REASONS.

The primary object of this Bill is to increase in the Presidency of Bengal the jurisdiction of the District Munsifs. That jurisdiction, which in Madras extends to rupees 1,000 and in Bombay to rupees 3,000, has, since 1831, been limited in the Lower and the North-Western Provinces to rupees 300. Both the local High Courts are of opinion that the judicial ability of the Bengal Munsifs is now such that they may be safely entrusted at once with a jurisdiction extending to rupees 1,000, power being reserved to the Local Government to raise the jurisdiction from time to time as may seem expedient. It is proposed that the Munsifs shall be appointed by the Local Government.

The Bill raises the jurisdiction of Sadr Amins to rupees 3,000.

The opportunity has been taken of consolidating the twelve Regulations and Acts in which the law relating to Principal Sadr Amíns, Sadr Amíns and Munsifs in Bengal is now contained.

Provision is also made for investing Principal Sadr Amíns with the jurisdiction of Judges of Courts of Small Causes. The converse provision,—for investing Small Cause Court Judges with the jurisdiction of Principal Sadr Amíns—has already been made by Act No. XI of 1865.

Lastly, in order to restore to the Civil Judges the jurisdiction of which they have been deprived by the operation of the mode of valuing revenue-paying lands introduced by the new Stamp Act, the Bill proposes to raise their appellate jurisdiction to rupees 10,000.

To the Right Hon'ble LORD STANLEY, M. P., Her Majesty's Secretary of State for Foreign Affairs, London.

My Lord,—I have the honor to inform your Lordship that on my representing to His Excellency the Kalahome the inconvenience and delay resulting from the Port Regulation, which enacts that Merchant Vessels coming to load at Bangkok must land their guns and ammunition at Paknam, His Excellency submitted the matter to his Government, and has now authorized me to make known that, from the 1st of December next until fürther notice, vessels need not land their guns, but their ammunition only.

This concession gives great satisfaction to our merchants here, and will be hailed with much pleasure by Shipmasters trading at the Port, as their ammunition can be moved with ease; but the loss of time in getting out their guns on arrival, and re-shipping them on departure, often amounted to a day.

I have, &c.,

No. 1247.

On the 1st of August last, the uncle of the Chief of Lawa, or tributary of Tonk, was treacherously murdered with a party of his followers numbering fourteen men. The evidence fully proves that the crime was perpetrated with the knowledge and at the instigation of the Nawab, the present Ruler of Tonk.

The Viceroy and Governor General of India in Council has resolved to punish this atrocity by the deposition of the Nawab.

Further, to mark his displeasure, the Governor General in Council has ordered that the salute due to the Ruler of Tonk shall henceforth be reduced from 17 guns to 11.

His Excellency in Council has directed the subjoined proclamation to be published for the information of the Chiefs and people throughout Rajpootana.

PROCLAMATION.

Camp Lucknow, the 14th November 1867.

Be it known to the Nobles, Chiefs, and people of the principality of Tonk, that tidings of the outrage which was perpetrated on the 1st of August last on the person of the uncle and certain followers of the Chief of Lawa, have been reported to the Viceroy and Governor General of India in Council.

His Excellency the Viceroy and Governor General, from the full evidence taken on the spot, has been forced with pain to the conviction that the tragedy could not have taken place without the knowledge, and indeed without the instigation, of the Nawab, the present Ruler of Tonk.

The Viceroy and Governor General in Council has resolved, both as a punishment of this crime and because since its commission the Government of India could repose no confidence in his administration, that the Nawab shall be removed from his Government, and that his son shall be proclaimed successor.

During the minority of the young Nawab, the British Government will administer the Government through Ibadoollah Khan, the uncle of the ex-Nawab, or make such other similar arrangement as it may see fit. But beyond the separation of Lawa from Tonk, no alteration will be made in the constitution of the State. Lawa will now become a separate Chiefship, and will so remain for ever under the protection of the British Government. The heirs of the murdered men will receive maintenance through the British Government out of the revenues of Tonk.

The Viceroy and Governor General in Council accordingly now proclaims to the Nobles, Chiefs, and people of Tonk the change in the succession, and calls upon them to submit to the Government of the new Nawab, and during his minority to the administration which will temporarily be introduced by the Agent to the Governor General.

The Governor General in Council entertains the hope that the present lesson will not be lost upon the country; but that it will lead both in Tonk and throughout the Province of Rajusthan to the well being and prosperity of all concerned, both of those who govern and of the people.

By order of the Viceroy and Governor General of India,

W. Muir,

Foreign Secretary.
